09/2016 – 12/2018

First American India, Bangalore, India

- Create and Support complex code structures in both VB.Net and C#
- Planning and Grooming the requirements and design their architectural plans.
- Day to day working on various user stories for enhancements in the projects.
- Documenting the code written for the user stories deployed to production.
- Doing Code Reviews for the fellow developer team mates.
- Development and Staging TFS branch management like merging and splitting.
- Innovating Build and Release definitions for various Project and output demands.
- Taking care of 3rd party vulnerability security scans like Veracode, Sonar cube, Pen Tests and working on their Flaw rectifications.
- Writing SQL objects like Procs, Views, Cursors, Triggers and manage Database upgrades and Schema design.
- Occasionally provide in house trainings on new Technologies and Standards to the Team and the new Joiners.
- Taking Technical rounds of the interviews for new candidates joining FAI.
- Working on KAIZENS for project improvements and efficient delivery.
- Leading up the complete Offshore development.
- Identifying/Rectifying the flaw in the system before anyone else does

### Software Development Engineer

12/2013 – 08/2016

Liventus Technology Services, Bangalore, India

Authored a number of applications (inhouse/clients)

for and with the company and helped building up the working base.

Tools like Time Tracking, Intranet (Expense manager, leave manager, etc.),

Career portal and Online Assessment were among the contributions we have done to kick start the company operations and keep it on the track.

## EXPERIENCE

### Software Consultant

09/2010 – 12/2013

Capgemini, Bangalore, India

Customized app development in various technologies and strategies. Never just limited to C# but PHP, Java and Perl.

Acted as a think tank for the project and fed enough ideas to keep the project recharged with enhanced features and bug fixes.

Brought an entire new project in the Company with 6 people team working and continued business.
